AIMS

Abaseen Institute of
Medical Sciences

AIMS and its logo symbolise the challenges and ambitions of the organization as reflected by its name

- **Abaseen - Father of the rivers** - negotiating its way across the whole of Pakistan, reassuring its members, donors and patients of its strength and ability to achieve and maintain the flow and care.

As a not-for-profit registered organization with Social Welfare Department in Peshawar KP, AIMS Pakistan draws its ability to continue services by treating its committed registered patients, devoted staff and sincere donors' professional skills, time, and monetary support for the trusted members of AIMS Board.

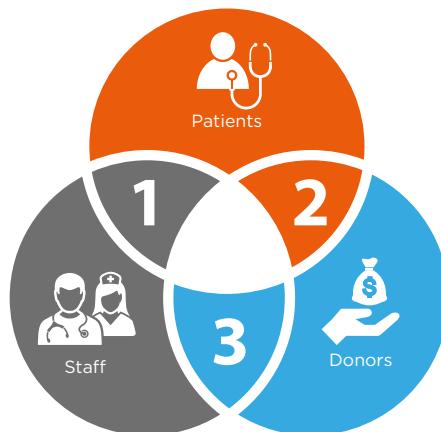

The target is to reach out and help patients and families influenced by diabetes, hypertension, and non-communicable diseases (NCD).

Key Projects

In partnership with Diabetes Association

Key Resources

VISION

Lead a comprehensive, quality assured and affordable diabetes healthcare institute

MISSION

Pool up resources for Diabetes and NCD healthcare development with the help of the public and private sectors in KP and Pakistan

OBJECTIVES

01

Provide high quality medical treatment and develop curative strategies for those who cannot afford treatment of Diabetes and other NCDs*

02

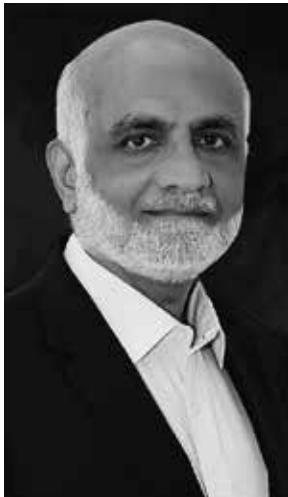

Integrate medical research, training and education for professionals

03

Implement community health awareness, disease prevention strategies, advocacy campaigns for diabetes & NCDs* and improve access to care

*Non-communicable disease

PARTNERSHIP

The Diabetes Association, Khyber Pakhtunkhwa established in 1985 is a registered charitable organization. Affiliated with the Diabetes Association of Pakistan and the International Diabetes Federation.

Diabetes Association KP and AIMS work together under a long term MOU

Owner of Land and building of Sugar Hospital in Hayatabad

Meethi Zindagi

Meethi Zindagi is a people-centric, organization, working for the diabetes community throughout Pakistan, through Awareness, Education, Empowerment and Support.

For children suffering from diabetes, AIMS and Meethi Zindagee have signed an MOU to provide free insulin and glucometers to those who cannot afford it.

www.meethizindagi.org

AIMS have applied to be part of a world-wide support program of an Australian charity for children. This will have significantly impact on lives of children with diabetes registered for treatment and their families.

www.diabetesnsw.com.au

Khyber Medical University Peshawar KP Pakistan and AIMS (Abaseen Institute of Medical Sciences) Pakistan will mutually help in Providing clinical Services and Implementing the concept of Family Medicine Together to establish a community-based Training & Research Centre in Diabetes Hypertension and Non-Communicable Diseases.

Dr. A. Jalil and Dr. Jawad are part of Khyber Medical University Faculty, KMU has an MOU with AIMS Pakistan. Training part of its post graduate courses at AIMS Sugar Hospital. Currently such activities:

- Family Physician of KP training in consultation with WHO
- Specialized Dental Services
- Postgraduate training in Pathology
- Developing Podiatry and wound care services with focus on prevention of diabetes feet complication

RESEARCH & DATABASE

Large volumes of data are generated every year in AIMS at Sugar Hospital, its outreach, and partnerships with individuals and institutions. The IT team is working on making the data FAIR - to meet the important principles of Findability, Accessibility, Interoperability, and Reusability. This will help AIMS to improve patient care, promote its objectives, find & keep donors, and quality research, all leading to its sustainability, insha'Allah.

Poster presentation in IDF Congress Bangkok Thailand, 2021

During covid pandemic, a research project enrolling 200 patients attending our “circle of care” by the Nutrition Department was carried out. A 2.5-minute nutrition/ diet related educational video and written material, in Urdu language, for patients with diabetes was developed. The project fund raising by AIMS International UK also helped sustain the nutrition department during covid time. Study was led by UK-based AIMS volunteer, Dr. Yusra Amanullah.

Patient Satisfaction Survey at Sugar Hospital

To assess quality of healthcare services the survey measured six basic metrics, quality of medical care, interpersonal skills displayed by medical and non-medical professionals, transparency and communication between care provider and patient, financial aspects of care, accessibility of care and location. 78% said the hospital environment was good, relax, economical, clean and friendly, 5% were not happy with long waiting time for the family medicine doctors and 3% were unhappy with the reception. Over 90% had good recommendation for friends, family/ relatives

Research Ethics Committee established in AIMS Pakistan

The Committee consists of a chairperson, a general Secretary, four technical member (3 doctors, one university teacher), one lay person representing the community, one Imam (religious leader), two patients with type 1 and type 2 diabetes and one social worker/ politician. Several research projects are under way by Postgraduate students from Khyber Medical University, Agriculture University and Peshawar University.
